COURSE/ TEST DESCRIPTION

This course is split up into 3 parts, training, theory test and practical test. In the training, trainees will be taught how to solve various kinds of real-life problems and scenarios with Primavera. In the theory test, they will be examined on the theory aspects that were taught during the first 3 days of training. In the practical test, trainee will be given a scenario and will be asked to act on the problem with Primavera. The scenario given will be related to the industry the trainee is in.

- 3 day training
- 1 day theory test (100 questions to be answered within 2-hours)
- 1 day practical test (1 day practical test within 7 hours)

LEARNING OUTCOME

High competency in handling real-life scenarios and problems with Primavera
