

BASIC PROJECT MANAGEMENT IN ORACLE PRIMAVERA, P6 #102

CSG Training Centre | Oracle Advantage Partner | Certiport Authorized Testing Centre

FOR WHOM

New Users, End Users, Project Coordinators, Project Managers, Business Analysts, Functional Implementer

PRE-REQUISITION

Working knowledge of Windows Operating Systems.

DURATION | VERSION

3 DAYS, Version 18

COURSE OBJECTIVES

This course provides hands-on training for Primavera client/server solution. Participants will be lead through the entire project life cycle from planning to execution and gain a thorough background in the concepts of planning and scheduling. Scheduling techniques will be covered. This three-day course leads you through hands-on workshops that create and track an entire project to completion. All workshops and instruction use the three basic elements of project management: schedule, resource and costs.

Participants will also learn how to manage projects on time and within budget to ensure optimal outcomes from capital and resource investments.
