FOR WHOM

Draftsperson, Engineers, Architects, Designers, New users of SketchUp

PRE-REQUISITION

Working knowledge of Windows Operating Systems.

Working knowledge of basic design/ drafting procedures and terminology (recommended).

DURATION | VERSION

2 DAYS, Version 2019

COURSE OBJECTIVES

Get trained by Authorized Certified SketchUp Trainer!

Build your 3D modeling skills by mastering the basics of SketchUp. In this course, get up to speed with this easy-to-use 3D modeling application by gaining a foundational understanding of the drawing and design tools offered in SketchUp.

In this 2-days Essentials course, we will be covering navigating the interface, manipulating objects, drawing, leveraging organizational tools, and working with materials and textures. Also learn how to apply simple styles and animation to make your 3D projects more polished and presentable. Throughout the course, candidates will also get opportunities to practice what was learned in the course.
